EXECUTIVE SUMMARY

Informatics Engineering graduate and adaptable Full-Stack & Backend Developer with a strong track record in backend architecture, cloud computing, and technical problem-solving. Developed a solid engineering foundation through cloud development at Bangkit Academy, community platforms at LDK Syahid, and backend services at Ameliore Solusi Analitika. Professionally advanced at eBdesk Teknologi, specializing in high-performance automation engines, multi-language templates (Python, Rust, Golang), and AI solutions. A collaborative team player with proven leadership and communication skills, experienced in mentoring small teams and eager to drive impactful software projects.

PROFESSIONAL EXPERIENCES

PT eBdesk Teknologi

Full-Stack Developer

October 2024 – Present

- Entrusted with architecting and delivering diverse web applications, high-performance backend engines, and automated data pipelines across multiple enterprise projects.
- Collaborated with cross-functional teams (Frontend, Backend, Mobile, and AI) to design scalable database structures and clean API architectures.
- Provided technical guidance through independent research, project scaffolding, and occasional team mentorship.

PT Ameliore Solusi Analitika

Back-end Web Developer Intern

November 2023 – February 2024

- Assigned on HR Information System Project.

EDUCATION & LEADERSHIP EXPERIENCES

State Islamic University of Syarif Hidayatullah Jakarta (UIN Jakarta)

September 2020 – August 2024

- Faculty of Science and Technology / Informatics Engineering (GPA: 3.77/4.00)
- Student Activity Units (UKM) LDK Syahid – Coordinator of Journalism (Feb – Dec 2023)
 - Led a team of 6 staff members to design and publish organizational bulletins, wall magazines, and official press releases.
 - Managed event documentation and media coverage for various organizational initiatives
- Informatics Engineering Student Association (HIMTI) – Communication & Information Staff (July 2022 – July 2023)
 - Created creative video content focused on Information Technology trends to boost digital engagement.
 - Managed and curated content for the official HIMTI UIN Jakarta YouTube channel
- Al-Sharq Youth Indonesia Community – Core Team of Media Creative (Nov 2021 – June 2022)
 - Directed a creative team of 3 volunteers to design event flyers and promotional materials.
 - Served as the technical lead responsible for managing live streaming setups for all online events.

PROJECT / VOLUNTEER EXPERIENCES

Full-Stack & Backend Engineering Showcase

2023 – Present

- Successfully delivered diverse production-ready applications, including automated document generation engines, an IoT-based RFID factory system, and WhatsApp-integrated AI chatbots.
- Demonstrated adaptability in cross-functional teams (Frontend, Mobile, AI) and proven leadership in mentoring development teams.
- [[Explore Detailed Project Architectures & Source Code on My Portfolio Website](#)]

ADDITIONAL ACTIVITIES

Robotics Extra-Curricular at Islamic Junior High School Madrasah Pembangunan Jakarta

Freelance Mentor

January 2024 – June 2024

- Become a mentor who teaches about robotics.
- Teaching in a class that consist 8 students.
- Teaches various materials, namely C language, Arduino, and various sensors.

Student Activity Units LDK Syahid UIN Jakarta

IT Support Team [[Team Members](#)]

February 2023 – Present

- Main admin website of UKM LDK Syahid in 2023 period.
- Web Developer.

ACHIEVEMENTS

Cloud Computing Cohort at Bangkit Academy 2023 Batch 1

February – July 2023

Independent Study [[Certificate](#)]

WORKSHOP/COURSE

Cloud Computing & Web Development Certifications

2021 – 2024

- Completed 35+ certified courses from Google Cloud Skills Boost, Coursera, Dicoding, Oracle Academy, and Progate.
- Core competencies covered: Google Cloud Engine (GKE/Terraform), Java Foundations, Backend Development (Python/SQL), and Frontend (React.js).
- [[Click Here to View My Complete Certificates Directory via Spreadsheet](#)]

SKILLS

- **Programming Languages:** Python, Java, Golang, Rust, JavaScript, PHP, C, HTML, CSS
- **Frameworks & Libraries:** FastAPI, Frappe, Node.js, Express.js, React.js, Vue.js, Spring Boot, Laravel
- **Databases & Data Stores:** PostgreSQL, MongoDB, Elasticsearch, Redis, MySQL, MariaDB, ClickHouse, Firebase
- **Tools & Platforms:** Git (GitHub/GitLab), Docker, Apache Airflow, Postman, RabbitMQ, Crontab
- **Hardware & Embedded:** Arduino, NodeMCU, Embedded Systems
- **Design & Multimedia:** Figma, Canva, Adobe CC (Photoshop, Illustrator, Premiere Pro)
